

Stubbornly Different hand crafts its spirits in small batches using the finest ingredients. Acquiring all of its flavor naturally through the distillation process, our botanicals are distilled with neutral grain spirits. This provides a "break" from the traditional juniper-heavy qualities of a London Dry Gin.

STRONG ENOUGH TO STAND ON ITS OWN. NOT EASILY REPRODUCED.

AMERICAN DRY GIN

JUNIPER, STAR ANISE, LEMON & LIME PEELS, ANGELICA ROOT & CORIANDER | 40% ABV

Stubbornly Different American Dry Gin was inspired by the delightful aroma and refreshing flavors of lemon and citrus. This combination could blend nicely into cocktails, but still stand on its own. Its botanicals consist of juniper, coriander, lemon peel, lime peel, angelica root and star anise as main notes with other subtle herbs and spices.

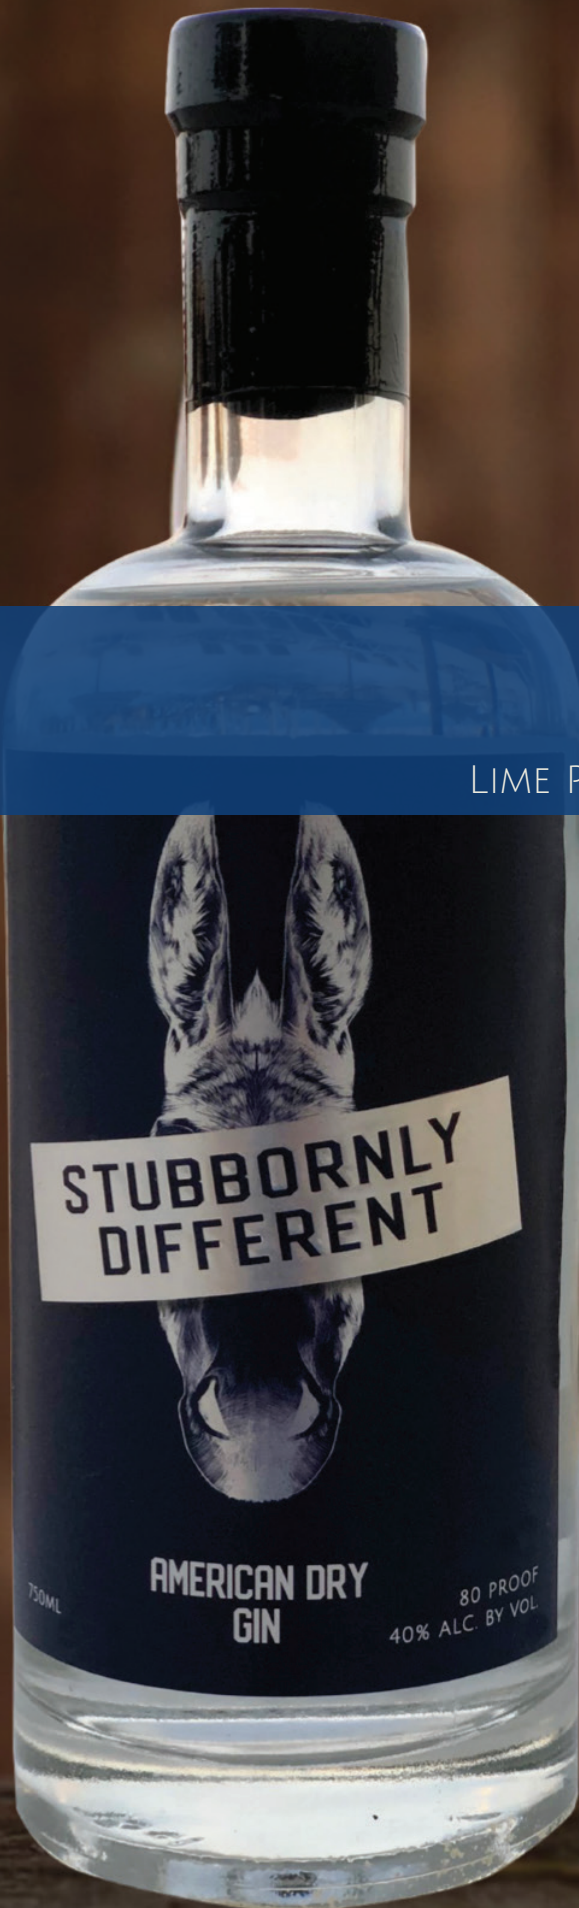

This American Dry Gin offers a balanced note of citrus and juniper with a hint of anise and angelica root. On the palate you will find a citrus forward note followed by the juniper. On the finish, you will get hints of earthiness from the anise and angelica root combination. Coriander gives a blast of spice at the end but with a smooth finish.

QUALITIES

Aroma: Citrus and earthy

Taste: Citrus and anise

Finish: Smoothing spice
